Dear Sirs:

This letter is in response to the court rule no. 2003-47 that is being considered in the Michigan Supreme Courts. I find it a tragedy that somewhere along the way, the government as well as some judges, have forgotten that it is a government of the people for the people of these United States. The job of the courts is to interpret LAW, not to make LAW. When has corporate America, along with the court system in this country feel they run this world with little regard for those who made them what they are? It would be just another slap in the faces of honest working men and women if Rule No. 2003-47 is even being considered in Michigan.

Thank You,

David L. Gerber
